## Work History

2022-02 -

Current

### Front End Developer

*EarlyBrite, Lagos*

- Worked closely with a team to develop and maintain the front-end of the online platforms (mobile and web) where clients (i.e. students) could easily pick any course, make payment, follow the course and track their progress.
- Followed SDLC best practices within Agile environment to produce rapid iterations for clients and app users.
- Assessed UX and UI designs for technical feasibility and implemented suitable concepts
- Made recommendations for new technology integration based on suitability and alignment to business goals.

2021-02 -

2022-01

### Front-End Developer

*Loytd., Lagos*

- Built and maintained Loytd's admin and merchants' dashboard with React.
- Developed multiple new user-interface features such as universal menus on top of all pages for easy navigation by users, global search bars for faster navigation to specific products anywhere on our apps etc.
- Collaborated with stakeholders during development processes to examine creative proposals and design best practices.
- Performed user experience quality assurance testing to identify and remedy shortcomings and bugs.

#### KEY ACHIEVEMENTS

- Implemented new responsive, mobile-first approach which increased mobile traffic by 15%
